FIRST STEPS TO THE STUDY OF HISTORY (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from First Steps to the Study of History To deliver the mind from the thralldom of the present, and to prepare it to comprehend the future, the most obvious course is to open upon it the past, which is an assured gift of God to the race. Hence the importance of history. But in this country, no study is more neglected in schools, and even in colleges. In European institutions of learning, professorships are devoted to it. Here, an abridgement of universal history is generally the only book which is studied, and although this be accompanied with a recommendation of general reading, as no criticism of authors is connected with the recommendation, even a rare mind, more than ordinarily capable of directing itself, is often wasted upon books which are of no authority, or takes a course confounding to chronology, and every other general principle of connexion. The following extract, translated some years since, by one of our most elegant scholars, from Wyttenbach s Life of Ruhnkenius, - though applying, in the first case, to a single instance of false education in Germany, may be applied almost universally in this country.
