Oxford University Press Inc, United States, 2015. Paperback. Book Condition: New. 7th Revised edition. 234 x 155 mm. Language: English . Brand New Book. Building on the best-selling tradition of previous editions, *Principles of Biomedical Ethics, Seventh Edition*, provides a highly original, practical, and insightful guide to morality in the health professions. Acclaimed authors Tom L. Beauchamp and James F. Childress thoroughly develop and advocate for four principles that lie at the core of moral reasoning in health care: respect for autonomy, nonmaleficence, beneficence, and justice. Drawing from contemporary research-and integrating detailed case studies and vivid real-life examples and scenarios-they demonstrate how these prima facie principles can be expanded to apply to various conflicts and dilemmas, from how to deliver bad news to whether or not to withhold or withdraw life-sustaining treatments. Illuminating both theory and method throughout, *Principles of Biomedical Ethics, Seventh Edition*, considers what constitutes moral character and addresses the problem of moral status: what rights are due to people and animals, and when. It also examines the professional-patient relationship, surveys major philosophical theories-including utilitarianism, Kantianism, rights theory, and virtue theory-and describes methods of moral justification in bioethics. Ideal for courses in biomedical ethics, bioethics, and health care ethics, the text is enhanced by hundreds of annotated citations and a substantial introduction that clarifies key terms and concepts. NEW TO THE SEVENTH EDITION Ch. 1: A clarified and more concise treatment of the common morality and its distinction from both particular moralities and the broad descriptive use of the term morality Ch. 3: New sections on degrees of moral status and the moral significance of moral status Ch. 4: A revised section on the therapeutic use of placebos and expanded coverage of theories of autonomy and information-processing issues Ch. 5: New material on historical problems of underprotection and...
