Cambridge University Press. Paperback. Book Condition: New. Paperback. 292 pages. Dimensions: 8.9in. x 5.9in. x 0.7in. Linguistics: The Cambridge Survey is a comprehensive introduction to current research in all branches of the field of linguistics, from syntactic theory to ethnography of speaking, from signed language to the mental lexicon, from language acquisition to discourse analysis. Each chapter has been written by a specialist particularly distinguished in his or her field who has accepted the challenge of reviewing the current issues and future prospects in sufficient depth for the scholar and with sufficient clarity for the student. Each volume can be read independently and has a particular focus. Volume I covers the internal structure of the language faculty itself, while Volume II considers the evidence for, and the implications of, a generativist approach to language. Psycholinguistics and neurolinguistics are covered in Volume III, and Volume IV concentrates on sociolinguistics and the allied fields of anthropological linguistics and discourse and conversation analysis. Several of the chapters in the work concentrate on the interface between different aspects of linguistic theory or the boundaries between linguistic theory and other disciplines. Thus in both its scope and in its approach, the Survey is a unique and fundamental reference work. It undoubtedly fulfills the editors aims of providing a wealth of information, insight, and ideas that will excite and challenge all readers with an interest in linguistics. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
