It is already being used by 29% of professionalprogrammers, with that percentage expected to continue increasing rapidly. It isstill a relatively new language, however, and developers are still looking forresources to enable them to use it better. Effective C# covers C# from apractical perspective, and provides insight into using the language moreefficiently. The reader will get information based on years of practical C#experience in real world settings. The format of the book is the same that hasproven immensely popular in other books in Scott Meyers' series. The authorhas a devoted following from his regular C# columns in Visual StudioMagazine. Every serious C# developer will keep this book close at hand, toreturn to again and again for advice. 307 pp. Englisch.
